WORK EXPERIENCE

2023-Present
Independant Contractor / Remote
SHOPIFY DEVELOPER

2019-2022
TH Genesis | El Segundo, CA / Remote
SHOPIFY DEVELOPER & SENIOR GRAPHIC DESIGNER

Frontend Shopify developer responsible for building pixel-accurate websites and landing pages using modern web development practices. Also led graphic design initiatives for digital and print collateral, with a focus on strong visual communication and user-centered design.

- Built high-converting marketing and product pages spanning the full customer journey, from landing page to checkout
- Developed product upsells and order bump experiences to help increase average order value
- Created custom SEO-friendly Shopify themes and templates using Liquid, JSON, HTML, CSS, and JavaScript
- Designed digital assets, branded graphics, and social media collateral for multiple TH Genesis brands
- Partnered closely with the marketing team to design and develop landing pages that increased AOV by 20% or more

2017-2018
Edlio | Culver City, CA
TECHNICAL SUPPORT & FRONT-END DEVELOPER

Provided technical support and front-end development for school districts using Edlio's custom content management system.

- Delivered CMS support by phone and email for school administrators and staff
- Built ADA- and WCAG-compliant websites and landing pages using HTML5, CSS/Sass, JavaScript, and JSP
- Developed custom HTML/CSS templates and front-end features based on client needs
